Education

Bachelor Of Technology - 7.90 CPI , National Institute Of Technology, Raipur	2020 – present Raipur
Class 12th - 75.4% , Ashoka Public School	2018 – 2019 Raipur
Class 10th - 87.4% , Adarsh Vidyalaya	2016 – 2017 Raipur

Technical Skills

Database

SQL

Data Visualization

Power BI, MS Excel

Programming

Python

Soft Skills

- Team Work
- Communication
- Management Skill
- Critical Thinking

Projects

UK Bank Customer Analysis

- Imported, cleaned, transformed and analyzed the dataset in **PowerBI** and designed a **dashboard** so as to get a better idea about trends between the customers.
- **31-40 age group** is more likely to join.
- **Over 50% contribution** was from males.

World's Oldest Business

- In this project, **SQL** has been used to discover the businesses that **survived** changing market conditions for **more than 1000 of years**.
- The data is contained in several different datasets. So, **joining techniques** are required to merge **3 Tables**. After that, manipulation functions, such as **grouping and filtering**, were used to count the oldest businesses by continents and categories.

Exploratory Analysis of Powerlifting

- Analyzed the given dataset to understand the factors that affect powerlifting domain, that is age, gender and overall weight.
- Dataset comprises of over **1,40,000 rows and 13 columns** using Python(**Numpy, Panda and Matplotlib**).

Position of Responsibility

Innovation Cell, Head of Design Team

Worked with my **20+ team members** for multiple posters and invitation cards etc. Also worked with **E-Cell team for a collaboration event**.

2022 – present
